B.C. Convinced Alternatives Can Be Devised Consistent With Goal of Full Employment

'Dominion-provincial financial proposals will not work in their present form, more particularly because they fail to take into consideration some of the serious financial probems of the provinces, but British Columbia is convinced that alternatives can be devised which will not be inconsistent with the goal of full employment." Premier John Hart told the steering committee of the Dominion-provin

cial conference at Ottawa vesterday He had already intimated that the proposals were

satisfactory to British Columbia. "The Province is in complete agreement with th aims of the proposals," he said.

"We are satisfied that our task will not be finished until the course toward high level employment and income has been clearly charted, and our individual responsibilities fully defined and accepted. In those cases where we have been obliged to reject the substantial proposals made by the Dominion, we have done so reluctantly." he stated.

He hoped for a formula that would enable the Domin on and the provinces to embark upon the well-conceiv program of social security and high level employment that

Action Now!

This country is not going to wait for Mr. Howe's "year or two" to see that battle veterans and those displaced from war industry find work and a decent standard of living. The issue is now In Victoria last week there were 1.983 applicants for work and 644 vacancies, including jobs for a boy. Across Canada by federal report 160.029 individuals were seeking work with 120,000 vacancies, vacancies which evidently they could not fill. Across Canada also by municipal and other reports many times that number were seeking work, without finding it. With the war not over by six months, Canada seems headed for a log-jam in its replace-ment of men and women, for which express purpose it has had six years warning and many millions of dollars in public funds.

Here in the West we do not need to take anybody's word for it. We see the men and the women. They are being shunted from pillar to post, from governmental bureau to veterans' office. from veterans' office to rehabilitation council, from rehabilitation council to industry, from industry back to the ally, they are "listed." That is not good enough. That will not do. Mr. Howes promise of action "in a year or two" is like a red rag to a bull under these visible circum-stances. These men, these women, must live now. They cannot wait two years for the chances that give them earnings. Meanwhile, they dig into their gratuities and laidby savings every day.

Copious Promises

Mr. King's Cabinet and 245 Members of Parliament at Ottawa can take their minds off the proposed salary grab for just a little while, this nation would like action now to square with some of the promises that have been made, copiously and freely enough, in the last six years. How about that orderly reconversion from war to peace? How about everything in readiness for the returning ver How about the need for taxes and loans—Mr. Ilsley's two budget horses—so that this country would be ready to face the problem of human resettlement at the war's

The war has ended. Tens of thousands of men who fought for Canada in action are back in this land-wearing out their last battle dress. Tens of thousands of other veterans are champing the bit in Holland, in England and at many other points, waiting to get home. - Here in Victoria 900 war plant workers were laid off on one day last week only one such discharge in a series now nonths long. They were building ships long. What will they do, not in two years' time but now, Mr. Howe? 'We have had the promises, heaven knows. Where are the When will they be implemented Action is urgently needed.

Action is required for unavoidable reasons: Canada's first—and today her chief—duty is to play fair with those who fought and those who labored in the war. They did not fight a war for unemployment. That is not a human goal. They fought, and they worked, for the right to live, to be, to grow, to make something of themselves in a free land—not merely to subsist on promises or handouts from the national purse. They want work. If the Government will read their own campaign and war loan speeches for six years back they will see what we mean. The time for promising is over, like the war. It is time for deeds now. Nor will a salary grab effect the placement of a solitary woman in Canada.

Men. Not Cyphers.

Unemployment is like inflation. Ir begins with one man. It mounts and rolls until all sight of the individual is lost. Then we begin talking about numbers, figures and cyphers in a register. That is what the latest "report" from Ottawa really means what the jobless, 120,000 vacancies. while there is forgotten the individual and all trace of his capabilities, training and needs. The task to be done is an individual one. If there is one veteran to be placed this land has an unemployment problem. If there is one war-plant worker out of a job something must be done about him. He cannot live on

This country has only to recall the years 1929-1933 to remember unemployment and the dole. We thought we had outgrown that. We thought the day had come when the Government would lead, and the nation would follow, in a joint attack on dislocation as it arose. It has arisen. It must be faced now, and not at some distant period after Members of Parliament are through grabbing at a little more for themselves. We sepeat that this is a human equation. May Canada avert the day when we ever again descend to counting "the unemployed" and passing the buck. Will Ottawa look at its own "figures." and see behind them the flesh and blood men and the women who fought and who labored for this land? Rehabilitation

Indian Elections

Elections emphasized as being of unprecedented importance to the future of that country have begun in India. During the next three weeks the eleven provinces of British India will go to the polls to choose a new Central Assembly, following which elections to the various Provincial Legislative Assemblies will begin. Plain results of the latter will not be known for several months.

These elections are expected to fit into the ernment's plan for promoting self-govern-ment in India as announced by the Viceroy, Lord Wavell. After completion of the elec-tions, the Viceroy will discuss with members of the Assemblies and representatives of the Indian State ways and means of setting up a constitution-making body, which will draft India's new constitution as a free member of the British Commonwealth, with full Do-

What is looked for in the elections, both central and provincial, is a clearer indication of the degree of support which India's Muslims give to Pakistan, the policy of separate Hindu and Muslim states advocated by Dr. M. A. Jinnah. president of the Muslim At present some two-thirds of the Muslim representatives in the Central and Provincial Legislative Assemblies stand for the Muslim League and Pakistan. Interest is now focused on the extent to which Dr. Jinnah will succeed in winning increased support for his policy.

Dr. Jinnah has declared he will accept no constitution that does not provide for Paki-The Hindu Congress Party is equally adamnant in its demands for Indian unity. The verdict of the elections on the movement for Pakistan may therefore prove crucial to the interest and general welfare of future

Oceanic Flight

A Clipper flying boat took off from New York yesterday with 24 passengers for the United Kingdom. They were civilians, and not traveling on priorities of any kind. They had paid for their passages at the rate per head for a one-way crossing of the Atlantic, or about what first-class steam-ship travel would cost. A few months ago-the tariff for that trip would have been \$495, so this is again a pioneering peacetime flight. Even via the Azores, the Clipper plane can span the Atlantic in a time that is reckoned not in days, but in hours.

Few people doubt that before many years have passed such a flight will be as routine as crossing the Gulf of Georgia. In the war, thousands of planes and tens of thousands of were flown across the Atlantic The time from the Canadian side to Great Britain dropped from 17, to 12, hours for the heavy warplanes in use at that Smaller, faster craft have cross about half of that time. If one day the turbo jet planes replace the propellor types such speeds will then be obsolete. The Atlantic, which used to be a nightmare for the seamay become a pleasant morning's outing, between a late breakfast and an early

The Pacific, likewise, has yielded up its immense size. One-day flights from Guam to Washington, and 26 hour jaunts from Tokio to Chicago tell their own story. It is an amazing one. It comes from the trial and error of hundreds of men in many different types of machines. It stems from the daring pioneers, the Alcocks and Browns, the One-Way Corrigans, of another day. And so it is across ocean and continent, between hemisphere and hemisphere about the world.

Most remarkable of all is the reduction in passenger fares. Today's experiment may bethe settled policy of tomorrow. Even to cross the Atlantic in a few hours is not high, but low by all comparative standards. And that rate will drop as numbers and frequency develop. That has been the steady progress of civilian aviation, a new factor in human weal.

The story of the Fairmiles seems to be getting "worser." as "Alice" might have said. It develops now that while the War Assets Corporation was selling half a hundred of them to France through a New York brokerage for \$3,000 apiece. less commis the Canadian taxpayers bought four of them at \$50,000 apiece, "completely equipped as naval vessels." In respect to those four ships. the taxpayers would seem to have bought them twice over once for \$140,000 apiece. and the second time for \$50,000. Perhaps this is Wonderland, after all.

Full many a glorious morning have I seen Flatter the mountain tops with sovereign eye. Kissing with golden face the meadows green, Gilding pale streams with heavenly al-

chemy. Anon permit the basest clouds to ride With unly rack on his celestial face, And from the forforn world his visage hide Stealing unseen to west with this disgrace. Even so my sun one early morn did shine With all-triumphant splendor on my brow; But, out alask' he was but one hour mine The region cloud hath masked him from

Trade Zones

Frank M. Kelley Last week the Victoria Chambe

of Commerce received on a National Harbors Board letterhead a commu-Harbors Board letterhead a commu-nication from Ottawa asking for the chamber's views on the "desirability of establishing foreign trade zones in Canada." It was algred by J. E. St. Laurent, chairman of the Interlepartmental Committee on Forei Trade Zones, recently appoin Parliament.

Losing no time in complying Ottawa's request, the Victoria Cham-ber's Committee on harbor expan-sion and development will meet to-day for the purpose of discussing the matter, together with the advisability of submitting a brief present-ing Victoria's advantages in the event of the Dominion Government deciding to set up somes in this

Ostensibly the appointment of the interdepartmental committee by the Government is for the purpose of examining any and every source of examining any and every source of possible commercial traffic which might mean business for Canadian ports. At the same time the data and views obtained could undoubtedly prove factors in determining whether foreign trade sones would be preferable to free port areas, petitions for the latter having already been received at Ottawa from both coasts of Canada as well as from ports along the St. Lawrence, LITTLE IN COMMON. LITTLE IN COMMON

In theory, foreign trade zones and free ports present little in common, while in practice they are widely different. A foreign trade zone has been operating since the late thirties at Stapleton on Staten Island, New York: By no stretch of the imagina-tion can it be classed as a free port area.

Willies of the process of the post of the control o

Colonial Office, the great "Crom-roads port of the East" is really a free port in the fullest sense of the term. Before-the Japanese occupation there were no port, harbor, dock, town or light dues charged. Only on opium, alcoholic liquors, to-

without restrictions, other than the tiems mentioned, it follows that the tiems mentioned, it follows that the cilizens of Singapore have their material wants filled more cheaply than if those material wants had to bear high tariffs and the usual coardiction of the companies of the state of the state of the companies of the state of the state of the companies of the state of the

to undertake the establishment of
free port areas or the snore restricted
foreigh trade zones, the successful
progress of either hereabouts would
depend wholly upon the harbor and
whartage facilities available. Nothing much could be done, in the first
instatice, lacking acopamodation of
ships, without which neither a free
port for a foreign trade zone could
function effectively.

A GOD DOESN'T NEED MONEY

FIFTY YEARS AGO.

The City—An executive meeting of the Y.W.C.A, was held yes-terday afternoon, when Miss Garr was made honorary president of the association, and Miss Leech vice-president.

SEVENTY-FIVE YEARS AGO

Swinomiah Flats—The Seattle Intelligencer, in an article upon farming al-Swinomiah flats, mentions, as especially deserving of notice, Mr. Dedge's farm, upon which the finest regetables ever produced are grown, and from 27 acres of which he took 1,200 bushels of barley this season. Mr. Dodge is one of the early pioneers of British Columbia.

Tetters -- Editor

THE SALARY GRAB

Sir.—We fully agree with your torial of November 12, in which a correctly censure members of Ottawa House for their shameless proposal to increase their own already adequate salaries by \$2,000

es, only spend what is necessary

and buy War Bonds.
It will take 20 \$100 War Bonds to pay this proposed additional nest egg for one member for one year.

In proportion to the services they render we already pay our mem-bers very comfortably; on top of this they are given free passes for travel, free postage, and the free services of a stenographer. Do they really want more when they re-member that old age pensioners get only \$20 or \$30 a month to live on, and Indians on relief get only \$4.88 nth?

The public should act in this matwrite to his representative in Ottawa and threaten to withdraw his sup-port if the member votes in favor of this preposterous resolution.

R.R. 2, Victoria, B.C., November

CORVETTES ALSO?

CORVETTES ALSO:

Sir.-In view of the recent disclosure that R.C.N ships were sold
for \$3,000 each, a news item in The
Nation, a New York publication,
prints the following under the heading of "Bargain Basement: The ed Ships Corporation, New York, has Canadian corvettes for sale, for a minimum of \$29,000 each, in quan-titles of ten. We offer these famous vessels costing originally over \$650,-

NOTICE

THE Allied Forces Exemption Act, 1939. provides that the assessment work on all mineral claims held under the provisions of the Mineral Act by any member of the Allied Forces at the time of his joining such Forces for service in the present War shall be deemed to have been done. This protection extends for the duration of the War and for a period of six months thereafter. Attention is drawn to the fact that the protection shall not apply ent work required to be in respect of a done subsequent to the transfer by a member of the Allied Forces, or by his personal representatives, of his interest in the mineral claim. In other words the new owner immediately comes under the provisions of the Mineral Act and must perform and record assessment work as required by that Act.

Example: Anniversary date of mineral claim May 10th, 1946.

Bill of sale drawn and dated April 1st. 1946. New owner must perform and record work as required by the Mineral Act on or before May

These provisions also apply in respect of leases held under the Placer-mining Act. The War, insofar as the Allied Forces Exemption Act, 1939, is concerned, will not be over until Peace is formally proclaimed by the Federal Government at Ottawa.

ANSWER TO MODERN ELECTRICAL LIVING

The key to modern living in your home is an adequate electric wiring system and plenty of outlets! For convenience and appearance, for efficiency, safety and saving—every lamp, every appliance needs its own outlet—at every point of usage. Too many appliances operating from too few outlets mean dangerous over-loading of existing wire. Too few outlets mean exposed, makeshift cordsunsightly and unsafe. Too few outlets mean less efficiency from your equip-

GENERAL & ELECTRIC WIRING MATERIALS

Adequate electric wiring and sufficient conveniently located outlets save time and trouble-by giving you power and light wherever needed. They save money by ensuring that every lamp and appliance in your home is receiving enough electricity for efficient, thrifty operation. They enable you to enjoy all the benefits that modern electrical equipment can give. Make the most of electrical living by making sure that your home - new or old - is adequately wired with dependable, long-lasting General Electric Wiring materials.

London Market

LONDON, Nov. 26 (Reuters) -South African gold mines/continued South African gold mines-continued to advance on the stock market to day although trading was dull and the volume of business small.

The market was unwilling to absorb British funds and rails and losses were registered. Foreign bonds were quiet and international dollar stocks slipped with Canadian Pacific Railways off 3-4 at 20 1-4.

Among industrials nationalization fears disturbed irons and steels and tobaccos and breweriers also were on the minus side. Small business transactions made it difficult to test other prices.

Poor health, a pallid complexion and dry, rough, unattractive skin often result from lack of vitamins A and C in your diet. Libby's "Gentle Press" Tomato Juice is an excellent source of these vitamins. Drink it every daythe vitamins will help protect your health and promote quick healing of skin blemishes. They are the scientific way to radiant health and naturally lovely complexion which goes with it. Libby's is a grand appetizer, too, for the goodness and flavour of fresh, ripe tomatoes are captured in every glassful.

DOUBLE YOUR MONEY BACK if you don't agree that Libby's "Gentle Press" Tamato Products - Juice, Catchup, Chili Sauce and Soup - are the best you've ever tosted.

Air Line Reports Improved Service

fourth daily flight by Trans-Canada Air Lines will commence from Vancouver on December 1, it was announced yesterday by J. J. Robinson, district traffic manager The flight will operate to Lethbridge. Through the new flight, inter-city services to Lethbridge, Calgary and Edmonton will be increased to four

Edmonton will be increased to four hights daily, providing Victoria with greatly improved passenger accommodation from Vancouver to principal cities of Alberta.

It is anticipated that early in 1946, the new flight will be extended to make a complete fourth daily transcontinental flight from the Pacific Coast to Eastern Canada and New York.

VITAMIC RUBBER. The rubber used in both

Yes, you can be sure of Firestone tires standing up to any practical speed you will ever travel. Wilbur Shaw, the famous race driver, definitely proved that for you in an actual speedway test.

- Shaw drove for 500 miles at an average speed of 100 miles per hour-on the straightaways he hit 135 miles per hour.
- · Not a skid or blowout occurred in this gruelling test-equal to 50,000 miles of ordinary driving.
- The test was made under supervision of the American Automobile Association.
- Regular Firestone tires taken from STOCK were used.

You may never want to drive at 100 miles per hour but it's mighty comforting to know your Firestone tires have the reserve strength and stamina to stand up to any demand you could ever make of them. When you are able to buy tires insist on having Firestone DeLuxe Champion tires on your car.

way to go yet."

Our telephone system is trying hard to catch up in its growth, held down during the war by government restrictions. The two main bottlenecks in the cities now are cable and central office equipment. We are receiving some of each from the factories but not nearly enough to meet our requirements. However, we are showing progress and are looking forward to the day when the waiting lists for telephone service will disappear.

British Housing

Plans Explained

The housing problem in Great Britain will be treated as a military

operation, drastically, according to Miss Helen Alford, housing manager

of the metropolitan Borough of Pulham, London, who speke before

the Real Estate Board, Chamber of Commerce, the Citizen's Rehabili-tation Council, and others last night

Two major problems facing offithe housing situation. Miss Alford explained, were being overcome. They were obsoleteness of old property and the tremendous problem of population density.

Solution to the first obstacle was being found through legislation permitting municipal requisitioning and purchasing of old property, to be repaired, or demolished, to mike way for low-coat housing projects.

The problem of population density was to be met by decentralization. The latter, the speaker said, applied particularly to large cities, such as London, where it was planned to set up low-cost housing communities outside of, but adjacent to, the city itself.

Plans had been made to build about 5,000,000 homes for low-income groups within the next few

about 5,000,000 nomes for low-in-come groups within the next few years, but the work was being tem-posarily delayed owing to the gov-ernment's unwillingness to consent to high building prices asked by contractors, Miss Alford explained,

Championship Bout Is Definitely Off

PORTLAND, Ore Nov. 26 or ...

The light heavyweight boxing championship bout between Gus Lesnevich, New Jersey ittilst, and Joe Hahut, Woodburn, Ore, sailor, is definitely off because Joe can't pare his weight down to the required 175 pounds, Matchmaker Joe Waterman said today.

Instead, a non-title affair will be held here January 11. This means \$16,000-affready received from fight fans who ordered tickets early will have to be returned.

The Cough That Sticks The Cough That Hangs On

This is the kind of a cough it is hard to get rid of, the kind that bothers you during the day and keeps you awake at night.

Why not get a bottle of Dr. Wood's Norway Pine Sryup and see how quickly it will help to relieve you of this coughing condition?

It acts promptly and effectively, going to the foundation of the trouble, loosening the phicym, soothing the irritated air passages, and stimulating the bronchial organs.

"Dr. Wood's' has been on the market for the past 48 years.

"Tries 35c a bottle; the large family size, about 3 times as much, 60c, at all drug counters.

Flyer Gets D.F.C.

received here.
Also arriving today is the liner
Empress of Scotland with 4,122 repatriates, including 3,514 soldiers,
467 R.C.A.F. 41 R.C.N. 39 merchant
navy personnel, two Red Cross, and
three South African Nurses, 17 British Army personnel, 63 Ministry of
War staff, and 15 other civilians.
Five troop transports will be used
to bring the 39,000 veterans back to
Canada.

Mayor Percy E. George yesterday received a Canadian Red Cross

Undson's Bay Company

Here's the Newest Improvement in MOTOR OIL

VETERANS PLAN REUNION

-a war-born inhibitor that holds oxidation in check

DURING THE WAR years this newly discovered oxidation inhibitor was in military service. It was helping to save our tanks and other fighting vehicles from lubrication failures that would have taken them out of action.

Now, at no increase in cost, you can have this war-born ingredient in your motor oil. Added to Golden Shell during manufacture, it fights the oxidation which results in sludge. It gives you an oil that stays free-flowing, full bodied, and efficient

As you know, gummy sludge means trouble. It sticks to bearing surfaces. offering little or no lubricating value, and preventing good oil from getting in where it's needed. When this happens, a big repair bill is brewing. So change now to new Golden Shell Motor Oil with oxidation inhibitor, Shell Oil Company of British Columbia, Limited.

SHELL CREDIT CARDS ARE BACK, Honored et all Shell Stations in United States and Canada. Apply for yours at any Shell Office

"WE NEED A PLACE TO LIVE

WE are living in a tourist cabin. That was all right in the summer months but now, with the approach of winter, I cannot expect my wife and little girl to live there.

"Mr. Canadian home-owner-you cannot imagine what it is like to come home from overseas and

not be able to find a place to live. All we need is enough space so that we can be together during the next few months, after five years apart. In the springtime, I am sure the situation will be improved and we can get a proper home of

THIS APPEAL MUST BE ANSWERED

Men who fought for Canada are seeking accommodation from one end of the Dominion to the other, The housing situation is acute due to several reasons

- 1. Thousands of boys who went to war as single men are returning to civilian life, having married in Canada or abroad. Many of them have tiny children.
- 2. Canada's wartime families at home have sought and secured more spacious living accommodation - a great strain on the present facilities
- 3. Although thousands of homes have been built during the war, the restrictions on vital materials curbed the building necessary to meet the increasing demand. Government has placed housing on top priority lists, but it will take time to catch up with the demand.

This housing appeal for veterans is only a temporary expedient until Canada gets into high gear on bousing. You are only asked to rent available space for a limited period until sufficient bomes are ready for occupancy.

If you have space which you can make available, list with the Citizens' Rehabilitation Committee, or the local branch of the Canadian Legion; advertise it in the newspapers or list it with a real estate agent.

Inquire at the nearest Rentals Office of the Wartime Prices and Trade Board about five months or less rental agreements. These are exempt from normal Wartime Prices and Trade Board non-eviction and five months tanancy will help many veterans through the winter.
